

Technician Training

Friday, 04 May 2007

Last Updated Monday, 14 May 2007

Training is the single most important part of the CHRISTIE OVERHEAD DOOR Company. All new technicians are introduced to garage door installation in our training facility. Under the strict supervision of one of our certified trainers, we teach all aspects of garage door and garage door opener installation.

All of our seasoned installers are trained at our facility on door and operator repair. We create common repairs in a safe environment, so all of our technicians learn the most efficient and safest way to repair your garage door.

Testing in all field disciplines is done on a regular basis, to ensure that all of our technicians are the best in the business. You can be sure that your garage door system is in good hands.
